

MINING REELING CABLE WITH INTEGRATED FIBER OPTICS

TELE-FONIKA Kable is recognized as a leader in the mining industry and has demonstrated an un-matched level of performance. We offer a variety of mining cables to meet any global standard. Better design, construction, materials and process technology, provides for a 100% reliability factor, resulting in the Best Quality Cable in the industry. Now our mining cables are offered with optical fibers for data and signal transmission.

- ➔ **Portable power mining cables available with the following single and multi-mode optical fiber types:**
2X6G62.5/125, 12G62.5/125, 2X6G50/125, 12G50/125, 2X6E9/125, 12E9/125
- ➔ **Exceeds ICEAS S-75-381 minimums**
(TENSILE STRENGTH (PSI), ELONGATION (%), MODULUS AT 200% ELONGATION (PSI), AND TEAR RESISTANCE (LBS/IN.)
- ➔ **MSHA Approved**
- ➔ **Excellent flexibility and dragging resistance**
- ➔ **Excellent abrasion, compression, tear and flame resistance (NEOPRENE, CPE, TPU)**
