

THE LEADER IN MINING CABLE QUALITY AND PERFORMANCE

TELE-FONIKA CABLE AMERICAS is recognized as a leader in the mining industry and has demonstrated an un-matched level of performance. We offer a variety of mining cables to meet any global standard. Better design, construction, materials and process technology, provides for a 100% reliability factor, resulting in the Best Quality Cable in the industry.

- excellent flexibility and dragging resistance
- maximum working safety
- excellent abrasion, compression, tear and flame resistance (neoprene, tpu)
- **EXCEEDS ICEA S-75-381 MINIMUMS** (tensile strength (psi), elongation (%), modulus at 200% elongation (psi), and tear resistance (lbs/in.)
- local stock available
